AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0065] of the specification as follows:

[0065] Control station 160 may implement the functions described below in response to processor 520 executing software instructions contained in a computer-readable medium, such as memory 530. A computer-readable medium may be defined as one or more memory devices ~~and/or carrier waves~~. In alternative embodiments, hardwired circuitry may be used in place of or in combination with software instructions to implement features consistent with the principles of the invention. Thus, implementations consistent with the principles of the invention are not limited to any specific combination of hardware circuitry and software.
